The investigation arm of the ABC OMP program needs certain types of Information/intelligence that Purdue can provide.

I believe they want to learn from our program's success and failures.

I encourage we develop a working relationship as we do in the Cargo Theft Task Force. It might not be a bad idea to propose a meeting with Cardinal, McKesson ABC and Purdue to explore options with preventing diversion.

At least we can call it diversion and focus on how we report issues to the DEA about smaller wholesalers stepping in from behind and selling what ever the customer wants.

Paul, will there be an outline of what we are going to discuss, and what should we be prepared to present?
